| Revision Information | |
|----------------------------------|----------------------|
| Revision Date: | December 5, 2024 |
| Revised Document Version Number: | 1.0 |
| Details of Revision: | Initial publication. |

Issues List

The following table includes the issues addressed in this release.

| Ticket IDs | Internal IDs | Issue Title | Issue Description and Resolution |
|------------|--------------|---------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| N/A | PFR-6516 | "Recruiter Name" and "Source Name" are being truncated in custom reports. | Previously, if the values in the fields were greater than 16 characters, they would be truncated in "Recruiter Name" and "Source Name" fields in the custom reports. This issue has been resolved and the values are no longer truncated in the report. |
| N/A | PFR-6517 | "Candidate Added Date" show as null in some cases in the custom reports. | Previously, there were some instances where the "Candidate Added Date" was showing as null in the custom reports. This issue has been resolved. |
| N/A | PFR-6523 | Custom fields for new candidates show as null in custom reports. | Previously, custom fields for new candidates were showing as null in custom reports. This issue has been resolved. Note: This fix will apply to candidates added post release and will not update existing records. If you have issues with existing users, please contact PeopleFluent Support. |
| N/A | PFR-6525 | Security Patches | 2024 security patches are included in this release. |
