Table 1: Revision Information

| Revision Information | |
|----------------------------------|---------------|
| Revision Date: | July 02, 2023 |
| Revised Document Version Number: | N/A |
| Details of Revision: | N/A |

Issues List

The following table includes the client-reported and internally-found issues addressed in this release.

Table 2: Issue Descriptions and Resolutions

| Zendesk Ticket IDs | Internal ID | Issue Title | Issue and Resolution Details |
|--------------------|-------------|--|---|
| 333010,336066 | NSD-8525 | Issues with links in the Workflow Assessment emails | In 22.07 a change was made to the Workflow Assessment functionality for the URL used. This caused downstream issues with other functionality, which has been resolved. The URLs will populate correctly whether the either the system.baseUrl or the system.relativeBaseUrl (or both) are populated in the ekp.properties file. |
| 337669 | NSD-8538 | Start Date was overwritten with 'Not yet started' when running Training Records CSV Loader | When running the Training Records CSV loader the Start Date no longer updates to "Not Yet Started." The Start Date now remains set. |
| 333012 | NSD-8558 | In the New UI, users were unable to change the status back from | In the New UI, users are now able to upload a certificate and change the status from "Approved" to "Open for editing." |

| | | | |
|----------------------|----------|---|---|
| | | "Approved" to "Open for editing." | |
| 336391 | NSD-8568 | Competency expiry date was not showing against the competency. | The competency expiry date was not displaying properly because there duplicate transcript entries.This has been corrected.. |
| 338227 | NSD-8581 | Resized image not being applied automatically | Resized image now shows properly in the Catalog Editor when applied automatically |
| 338325 | NSD-8623 | The Course Module Search summary was removing special characters | In the Course Module Search summary the special characters are no longer removed.This is fixed. |
| 339580 | NSD-8636 | SQL Server limitation errors in R419 report. | R419 report now runs properly, as it has been reconfigured to run in groups smaller than the SQL Server limitation and will output all as expected. |
| 338084 | NSD-8647 | SQL Server limitation errors in R112A report. | R112A report now runs properly, as it has been reconfigured to run in groups smaller than the SQL Server limitation and will output all as expected. |
| | NSD-8675 | Expiry status icon was not correct on elective fulfillment. | Expiry status icon is now correct when using the Transcript History Data Loader to mark as completed 'optional' modules in a competency. |
| 340438,341333,341506 | NSD-8694 | Auto-Enrollment could not be deactivated once it was set for Online and Program learning objects (EKP error) | Auto-Enrollment can now be deactivated and the set targets are removed.This has been fixed. |
| 341471 | NSD-8721 | Duplicate transcripts were created around the same time of "ClientAbortException: java.io.EOFException" error | Duplicate transcripts are no longer being created around the same time of "ClientAbortException: java.io.EOFException" error.This issue has been fixed. |
| 342373 | NSD-8729 | Additional issues with "Valid Until" not displaying against the Module in users' Learning Path. | "Valid Until" is now displaying properly against the Module.Previously, there were issues when a module expiration against a competency included some bad data. |
| 342051 | NSD-8733 | Certification Completion Task | Certification Completion Task no longer fails due to a volume of data., when there are |

| | | | |
|--------|----------|--|---|
| | | failed when there were a large number to process. | thousands of objects with certifications to review. |
| 333237 | NSD-8739 | Group Enroll with Override selected added users to waitlist. | When using Group Enroll and selecting Override for sessions with the waitlist set to Manual Upgrade, the users will now be directly enrolled. Other configurations for the waitlist already directly enroll the users. |
| | PLC-151 | Minor defects with the R139 Report | Resolved a variety of minor defects to the R139 Report including: reports should return only the most recent enrollment, the Competency Expiry Date column should be the earliest of the module expiry dates, the Overall Status should be the transcript status unless the module expiry date has passed, errors in the report when selecting expiry date in the report selector, displaying the checkbox type Module attribute value, and displaying Module ID/Title. |
