About This Document

This document describes server requirements and end user browser requirements for the PeopleFluent OrgPublisher Administration and Charting web apps.

Audience

This document is intended for System Administrators and IT Staff.

-  **Note:** This document assumes that you are familiar with the supported versions of the operating systems, web browsers, and typical office software.

Notice to Users

This document provides detailed information about the hardware and software you will need to deploy in order to use PeopleFluent OrgPublisher Charting web apps.

This document is subject to revision based on external hardware and software changes; it will be updated periodically to reflect those changes.

PeopleFluent supports and provides defect fixes for PeopleFluent products under valid Support and Maintenance Agreements on only those operating systems and browser environment distributions that have been certified and published by PeopleFluent. While it may be possible to run PeopleFluent products on other, non-certified operating systems or browser environment distributions, PeopleFluent makes no such representations or warranties, either expressed or implied. Additionally, PeopleFluent will not be responsible for providing any defect fixes for any such non-certified distributions.

Document Revision

This section lists the initial publication and any changes or updates that follow.

Table 1: Revision Information

Revision Information	
Revision Date:	December 17, 2021
Revised Document Version Number:	1.0
Details of Revision:	Initial publication.

Hardware and Software System Requirements

The following sections describe system requirements and information about setting up your server for use with PeopleFluent OrgPublisher Charting web apps.

Application Server Requirements

Table 2: Application Server Requirements

Requirement	Definition
Processor Speed	Recommended: 2 GHz Minimum: See Microsoft's requirements for the operating system.
Memory	Recommended: 2 GB RAM or more Minimum: 1 GB RAM or Microsoft's requirements for the operating system, whichever is greater.
Hard Drive Space	Minimum: 1 GB
Operating System	Microsoft Windows Server 2012 R2 or later (64-bit)
Microsoft Internet Information Server (IIS)	Required: 7.0 or later with: <ul style="list-style-type: none"> ♦ Default IIS Settings/Features enabled in the Server Manager ♦ ASP.NET 4.5 feature enabled Recommended: 8.0 or later with the above configuration, plus the WebSockets Protocol feature enabled.
Microsoft .NET Framework	Minimum: 4.7.2

Administration and Charting Web App Requirements

To use the PeopleFluent OrgPublisher Administration and Charting web apps, users need a supported web browser with JavaScript enabled and the URL of both web apps added to the web browser's Trusted Sites. For more information on how to configure these options, see your web browser's documentation.

As an alternative to adding a trusted site, Microsoft Internet Explorer users have the option of instead enabling **Active Scripting**. For more information, see that web browser's documentation.

Database Requirements

Data Sources

To use a database as a data source for charts, you must use a SQL database with its supported ODBC driver installed on the PeopleFluent OrgPublisher application server.

 Note: Oracle ODBC connections require a 64-bit Oracle driver.

What-If Planning

To use What-If Planning in charts, you must have the following:

- PostgreSQL 10.0 or later
- A valid connection to a PostgreSQL database

Web Browser Support Policy

To provide the best security and performance for our users, PeopleFluent recommends that clients use one of the following browsers to access PeopleFluent applications.

Unsupported older version of browsers may have rendering or compatibility issues. When such issues are reported, PeopleFluent will attempt to recreate on fully supported browser versions and in the event they cannot be replicated, the remedy will likely be a recommendation for clients to upgrade to a supported browser.

Microsoft Edge (latest stable release)

PeopleFluent supports the latest stable release of Microsoft Edge browsers in accordance with Microsoft's support policy.

Microsoft Internet Explorer (11)

PeopleFluent supports Microsoft Internet Explorer browsers in accordance with Microsoft's support policy:

<https://support.microsoft.com/en-us/gp/microsoft-internet-explorer>.

Mozilla Firefox (latest stable release)

PeopleFluent supports Firefox's latest stable release channel. PeopleFluent's support also extends to Firefox's specialized Extended Support Release (ESR). For Mozilla Firefox release notes, go to:

<https://www.mozilla.org/en-US/firefox/releases/>

Google Chrome (latest stable release)

PeopleFluent supports Chrome's latest stable release from Google's Chrome stable channel. For Chrome release updates, go to:

<https://www.chromium.org/developers/calendar>

Apple Safari (latest stable release)

PeopleFluent supports Apple's latest version of Safari browsers on macOS X and iOS.

Known Issues and Limitations

PeopleFluent *requires* the latest patches be installed for all supported web browser versions.

The following are known issues or limitations of web browsers that may affect the PeopleFluent OrgPublisher Administration and Charting web apps:

- The PeopleFluent OrgPublisher Charting web app does not support printing from the web browser. Instead, PeopleFluent recommends using the Charting web app's PDF or PowerPoint export features, then printing from those applications.
- The PeopleFluent OrgPublisher Administration and Charting web apps do not support using Compatibility or Enterprise mode with any version of Microsoft Internet Explorer.

Internet Access

The PeopleFluent OrgPublisher Administration and Charting web apps require access to www.gstatic.com to render graphs.

Supported Applications

This section describes the supporting applications that are recommended for use with PeopleFluent OrgPublisher Charting web app-deployed charts.

Exporting Data

The PeopleFluent OrgPublisher Charting web app provides the ability to export charts in Microsoft Excel, Microsoft PowerPoint, and Adobe PDF format. The following table lists the versions of those applications with which exports were tested.

Table 3: Org Chart Export Formats and Tested Applications

Format	Tested Applications
PowerPoint	<ul style="list-style-type: none">• Microsoft PowerPoint in Microsoft Office 365 ProPlus• Microsoft PowerPoint in Microsoft Office ProPlus 2013
PDF	<ul style="list-style-type: none">• Adobe Reader DC 2019
Excel	<ul style="list-style-type: none">• Microsoft Excel in Microsoft Office 365 ProPlus• Microsoft Excel in Microsoft Office ProPlus 2013
