You will now find several tabs listed on the

Now under 'Internet Explorer compatibility, click on the dropdown menu next to 'Allow sites to be reloaded in Internet Explorer mode', and select 'Allow'.

You will need to restart the browser for the change to take effect. To do that, click on the '**Restart**' option that appears.

Internet Explorer compatibility Let Internet Explorer open sites in Microsoft Edge ③ When browsing in Internet Explorer you can choose to automatically open sites in Microsoft Edge Allow sites to be reloaded in Internet Explorer mode ③ When browsing in Microsoft Edge, if a site requires Internet Explorer for compatibility, you can choose to reload it in Internet Explorer mode For this setting change to take effect, restart your browser Internet Explorer mode for 30 days from the date you add the page. No pages have been added to the Internet Explorer mode list yee.

Compatibility or IE mode is now enabled on your browser.

To open a website in Compatibility or IE mode on Edge, first open it as you normally do.

- For clients in our EU data center not using IPaaS: <u>https://home.peopleclick.eu.com</u>
- For clients in our US data center not using IPaaS: <u>https://home.peopleclick.com</u>,
- For IPaaS (including SSO) users in our EU data center: <u>https://login.peoplefluent.</u> <u>eu.com</u>
- For IPaaS (including SSO) users in our US data center: <u>https://login.peoplefluent.com</u>

Now, right-click on the tab and select 'Reload tab in Internet Explorer mode' from the menu.

Any website open in the compatibility or IE mode will have the Internet Explorer icon displayed at the left of the navigation bar. Also, click 'Done' on the menu that appears.

To exit the compatibility or IE mode for a website on Edge, again right-click on the tab, and select 'Exit tab from Internet Explorer mode'.

Always Open a Website in Compatibility Mode

After enabling the compatibility mode, every time you open a website, you have to switch the mode. You can negate the need

You can verify the list of websites or URLs that have been configured to open in IE mode under the 'Internet Explorer mode pages' section in the 'Default Browser' settings. It mentions both the dates, when the website was added to the list and the date on which it would automatically be removed (on completion of the 30-day period).

You can now easily open and access websites compatible only with Internet Explorer on Microsoft Edge.
